2024 Spring and Summer

It is sad to report, but close to the finish line the DA approval process has stalled. I will provide details in a later email.

To be fair to our contractors and trades people we have postponed their work. We hope to install the fire sprinklers and balustrades in May to June 2025.

A positive outcome for members and guests is that the bookings block out this spring (to enable the planned work) has been removed, and the lodge will be open from now until May 2025.

The Charlotte Pass road will be open to the public from Monday 16 September. From this coming Monday it will be possible to drive to the lodge!

To encourage bookings the Summer Shoulder rates will start from Monday 16th September. This means that next weeks member accommodation rate is \$295 per member adult week instead of the Winter Shoulder rate of \$524 per member adult week.

Thanks for the support
Jon Barber
